Special stipulations (list below)

Payment Information

Type _____

Date _____

Initial _____

Stipulations

- Water based operations are prohibited between October 1 and March 31 to protect brown trout during the fish spawning period.
- Streamside (riparian) vegetation shall not be damaged by operations.
- All materials too large in size to be moved by hand or hand held implements shall remain undisturbed.
- Motorized vehicles are restricted to designated roads and parking areas and shall be kept a minimum distance of 20 feet from all waterways, streamside vegetation areas, or wetland sites.
- Operations shall not take place within 200 feet of a public water supply intake, fish hatchery intake, irrigation diversion structure, bridge support, or boat ramp.
- Anchorage systems for suction dredging operations shall not span the stream or interfere with the passage of watercraft.
- All sites are within the Arkansas Headwaters Recreation Area. All applicable park and camping permit rules must be followed.
- A settling pond that prevents direct return of processed water to the river is required for all high banking activities.
- On shore excavation locations shall be refilled upon completion of work. If the operator leaves the area for more than a two-day period, then all reclamation work must be completed.
- Gasoline engines must be filled in a manner that prevents spills into the river and fuel stored at least 100 feet from the river.
- Collection or disturbance of historic or archaeological resources or sites is not authorized.
- All operations are required to comply with applicable state or federal regulations pertaining to endangered species.

Supplemental Sheet

Location information for other proposed sites:

You will need to include a topographic map with work location marked, a legal land description using township, range and section (s) and claim name and CMC number for all sites other than those listed above for any on shore or high banking activity. Note: if other locations are proposed, formal review and evaluation will be needed prior to any approval!

Map included: _____ Legal land description: _____

Claim Name and CMC Number (if applicable) _____

Access Description: *If any road building or improvements are proposed, a full written proposal must be included.*

Equipment Description: *(for all equipment not listed on the application form* _____
